Chateau de Bagatelle

On a wager with Marie Antoinette, in 1780, the Comte d'Artois (later Charles X, the second King of the Restoration), built an entrancing little chateau, with its charming gardens in the incredibly brief time of 64 days. The outlay was three million francs.

"C'est magnifique!", exclaimed Marie Antoinette, on catching her first glimpse of the beauty spot which became an enduring reminder of her wager. "Mais, non, c'est une bagatelle" answered the gallant Comte d'Artois. So in this romantic manner the name "Bagatelle" originated.

The gardens of the Chateau de Bagatelle, near Paris, are now used as testing grounds to determine the value of new roses, sent from all parts of the world. A most interesting place! So is the Bagatelle Nursery with its specimen evergreens, ornamental trees, Rhododendrons and new Azaleas. A cordial welcome awaits you.

Azalea Kaempferi Hybrids

Azalea Kaempferi Hybrids inherited the vertical growth from Azalea Kaempferi, one of the parents and also its hardiness. The delicate pastel colored flowers are large and do not burn even in the full sun. They are also desirable for forcing; at three consecutive Flower Shows in New York, they were awarded Gold Medals. They were also awarded Gold Medals in various European cities.

OUTSTANDING FEATURES ARE:

1. Thorough hardiness.
2. Rapid growth.
3. Extreme floriferousness.
4. Large flowers.

Carmen

Delicate rose like Moss Pink (*Phlox subulata*).

Fedora

Rose, like the outer petals of the Bleeding Heart.

Louise

Carmine, lighter than Hinodegiri.

Malus

Flowering Crabs are the rivals of Flowering Cherries. In fact, they are considered by many to excell them in beauty. They flower most profusely in a great variety of color, pure white, pink, white and pink, carmine, while in the fall, lasting until winter, the trees are covered with fruit, small tiny apples, yellow, orange, red and carmine, according to varieties.

MALUS arnoldiana

Flowers semi double, coral pink changing to white, fruit yellow.

— eleyi

Light purple foliage, later turning to green. Single, carmine flowers and carmine fruit in great abundance. The little apples $\frac{3}{4}$ in. across, make an excellent, beautifully colored jelly.

— floribunda

Bright pink buds, the open, single flowers white, reddish yellow fruit.

— halliana parkmanni

Double, bright rose flowers, fruit purplish red.

— niedzwetzkyana

Young foliage tinged purple, later turning to green. Flowers single, carmine, fruit carmine.

— theifera

Exceedingly floriferous, flowers delicate rose, changing to blush white; fruit greenish yellow.

Rhododendron Hybrids

The Bagatelle Nursery makes a specialty of growing Rhododendrons and have first class facilities to do so. Experiments, at great cost, have been made in the last ten years to test hardiness for outside plantings in the vicinity of New York and Boston; only the hardiest varieties should be chosen.

Varieties marked * need winter protection.

We have indicated behind each variety the maximum height available from 12 inches up.

We Cordially Invite You to Visit Our Nursery

HOW TO REACH US:

By train: Come to Huntington, Wyandanch or Babylon. Notify us of your arrival, and we will be glad to call for you.

Tel. Farmingdale 850.

By automobile from New York: Take "Midtown Tunnel" (Second Avenue and Thirty-Seventh Street, East), taking you to Queens Boulevard. Turn right and proceed on Queens Boulevard for about six miles. Turn left into Grand Central Parkway, proceed further on Northern State Parkway (the continuation of Grand Central Parkway) and turn off at "Old Country Road" (sign W 2). Turn left on Old Country Road and be guided by signs and arrows.

Our Sales Office is a few hundred feet west of Route 110 on the Jericho Turnpike at Huntington, next to Dahlstroms famous restaurant. To reach the nursery turn south from the Turnpike on Route 110, and follow signs.
